# HEOR and Evidence Synthesis

## Experts in Health Economics, Systematic Literature Review and Network Meta-Analysis

A robust, comprehensive evidence base is crucial in demonstrating the effectiveness and, ultimately, the value of your product to payers and other key stakeholders.

Our in-house team of health economists, evidence review analysts and statisticians work together to generate the clinical and economic evidence required for internal and external decision-making.

We can help you develop a roadmap of activities that will build a strong evidence base to support your product's value proposition.

### Evidence Synthesis

- Evidence mapping for strategic insight
- Systematic literature reviews – the gold standard for HTA and published evidence
- Market landscape reviews
- Rapid and pragmatic approaches
- Meta-analysis feasibility and network meta-analysis
- Bespoke statistical analyses
- Critiques of reviews and meta-analyses
- Publication strategy

### Health Economics

- Development and critique of Health Economics strategy
- Early economic modelling
- Global cost-effectiveness and budget impact models
- Country adaptations of global models
- Modelling support for HTA submissions
- Technical documentation and manuscript writing
- Models for use with local payers

## Your HEOR and market access partner:

At Mtech Access we work in partnerships with our clients to deliver high-quality work that is tailored to their commercial strategy, whilst meeting the needs of healthcare stakeholders. Our team are passionate about what they do and love to work with clients to find the best solutions to their challenges.

We carefully construct our project teams to provide the right balance of technical expertise, strategic consultancy and senior oversight and pride ourselves on our first-class project management. Our services are informed and validated by our panel of more than 90 NHS Associates and our global network of payers, healthcare professionals, and local market experts.

### What do our clients say?

“ The support from the Mtech Access team was outstanding. The Mtech Access health economists inputted into the systematic reviews to make sure everything ran smoothly for the models. I have come to realise that there are many benefits that come from having the Systematic Review, Network Meta-Analysis, and Health Economics models done by the same agency. ”

---

Global Health Economics Director, Pharma Company

“ Facing pressing resubmission deadlines, we reached out to Mtech Access to update our Systematic Literature Review and Data Analysis. I was very glad we did. We received the optimal outcome given the timelines – overall a very successful project! ”

---

Global HEOR Director, Pharma Company

“ The health economic modelling for our HTA submission was difficult and complex, but the Mtech Access Health Economist came up with lots of ideas, working with our team to overcome these challenges; it was just like having another colleague around the table. ”

---

Head of Market Access, UK & Ireland, Pharma Company

“ Honestly, the best agency I have ever worked with. It felt like we were working with a partner and not an agency! The Mtech Access Evidence Consultant we worked with was the driving force for this project's success. She set up the scope and plan, nailed the systematic review protocol and delivered great quality work requiring very few changes. The manuscript is now a central piece of evidence in our work with external stakeholders; it is a high-quality piece of work that is proving vital to our conversations. ”
